■ The University of Kansas Centennial Medallion, on the front cover, symbolizes the life of the University and its concern with the State of Kansas. The Latin motto is that of the Centennial: "Let us move forward." The skyline is of meaningful buildings: (right to left) the Campanile, Dyche, Spooner, Green, Fraser, Watson, Blake, smoke stack, and to the left of the column, new McCollum Hall. The ten points of the large star signify the nine schools and the College. The triangle within the star signifies the three ingredients of a great university: teaching, research, service. Symbols on the vertical column represent traditions, factors in the University's life, and pioneering achievements of the faculty. Some of these are: three Jayhawks, sunflower and wheat, sala-

mander-herpetological excellence, trilobite-paleontological leadership, books, the dermatome-life saving skin grafting device, earth-international education and service, Rock Chalk cairn, windmill-state's mineral resources of which water is the most important, cell, newspaper, bee, and Petri dishes-symbols of scientific break-throughs by the faculty, basketball-Dr. Naismith and "Phog" Allen, hesperornis-natural history collections, cup and brick-public health leadership, spheres and satellites-helium development; cell, Medical Center, painting, musical notes, student hospital-all symbolize achievements in those areas. The bronze medallion, 2½ inches in diameter, can be obtained from the Kansas Union Bookstore.
