CANDIDATES FOR DEGREES

SCHOOL OF LAW

PRESENTED BY DEAN MARTIN B. DICKINSON, JR.
THE LAWYER'S OATH ADMINISTERED BY PROF. CHARLES H. OLDFATHER

Marshals Assisting: Michael J. Davis, William A. Kelly

THE SCHOOL OF LAW was organized officially in 1891 preceded by a department of law in 1878. Until 1965 the degree conferred was the LL.B. (Bachelor of Law); the degree now is J.D. or Juris Doctor. This year the student body numbered 469, nearly a three-fold growth in less than a decade. Admission standards have become progressively higher during that period. The course of study covers three academic years, although many students earn a degree in a bit more than two years through attendance at summer sessions. The color of the tassel on the academic cap is purple.

SCHOOL OF MEDICINE

PRESENTED BY VICE CHANCELLOR FOR HEALTH AFFAIRS WILLIAM O. RIEKE
THE NURSING CLASS PRESENTED BY DEAN FOR FACULTIES AND ACADEMIC AFFAIRS DANTE G. SCARPELLI
THE OATH OF HIPPOCRATES ADMINISTERED BY DR. MAHLON DELP, PROFESSOR OF MEDICINE

Marshals Assisting: Dwight J. Mulford, David Waxman

THE SCHOOL OF MEDICINE was organized in 1905 when three medical schools in Kansas City merged to offer the last two years of the medical course. A "preparatory medical course" had been started on the Lawrence campus in 1880. The first building on the present Medical Center site in the Rosedale neighborhood of Kansas City was occupied in 1924. The School of Medicine and Medical Center is serving 1,500 students this year: candidates for the M.D. degree, physicians completing internships, residencies and fellowships; graduate students, student nurses, medical technicians and physical therapists; and others in several certificate programs in medical service specialties. Color of tassel on cap: green.

SCHOOL OF SOCIAL WELFARE

PRESENTED BY DEAN ARTHUR KATZ

Marshals Assisting: Graduate—Aase George, Gilbert Raiford; Undergraduate—Lois Kruger, Bradford Sheafor

THE SCHOOL OF SOCIAL WELFARE was established in 1969. However, social work education was begun in the Department of Sociology in 1937. The Department of Social Work was created in 1946 to offer the Master of Social Work degree through the Graduate School. This year the School enrolled 156 students in its two-year master's program and 146 junior-senior level undergraduate candidates for the Bachelor of Social Work degree. The School also conducts continuing education, non-degree programs for adults. Color of tassel is black and citron for M.S.W. candidates, citron for B.S.W. candidates.

The University Senate authorizes the faculty of each school to select not more than the top 10 per cent of its graduates as scholastic honor graduates. Not more than the upper one-third of the honor group will be designated by each faculty as graduating WITH HIGHEST DISTINCTION. The remainder will be designated as graduating WITH DISTINCTION.

COLLEGE OF LIBERAL ARTS AND SCIENCES

PRESENTED BY DEAN GEORGE R. WAGGONER

Marshals Assisting: Clarence S. Buller, William Kuhlke, Wilmer Linkugel, Edward I. Shaw

THE COLLEGE has been in practical existence since the University opened, but did not officially become a school until 1891. It is the largest of the 12 schools, enrolling 8,300 students last fall. Courses are offered by 32 teaching departments and 13 "programs" which draw on the resources of several departments. These provide approximately 50 major courses of study leading to the Bachelor of Arts or several Bachelor of Science degrees. The College also provides the foundation studies required by many professional schools of the University of Kansas and elsewhere. Color of tassel on cap: white.

SCHOOL OF ENGINEERING

PRESENTED BY DEAN WILLIAM P. SMITH

Marshals Assisting: Kenneth A. Bishop, John T. Easley

THE SCHOOL OF ENGINEERING was established in 1891. A Department of Engineering had functioned since 1870 and developed civil and electrical majors. The School moved into its own building, Marvin Hall in 1907, when six majors existed. Today the School offers the degrees Bachelor of Science in Aerospace, Architectural, Chemical, Civil, Electrical, Mechanical, and Petroleum Engineering and in Engineering Physics. All are four-year courses, but many students take an additional semester or year. Cooperative programs exist with the School of Business in Industrial Administration and in Civil Engineering-Business Administration. The School enrolled 1,007 students this year. Color of tassel on cap: orange.

SCHOOL OF FINE ARTS

PRESENTED BY DEAN THOMAS GORTON

Marshals Assisting: Jane Abbott, Joane Wyrick

THE SCHOOL OF FINE ARTS was established in 1891, a consolidation of a Music Department dating from 1877 and an Art Department set up in 1885. The two principal divisions continue to be music and the visual arts. Four-year courses are offered leading to the degrees Bachelor of Music in 18 majors, Bachelor of Fine Arts in 15 majors, and the Bachelor of Science in Occupational Therapy. Music and art education majors take their first two years in the School. Music classes and lessons are offered for all students as well as music majors. Because of space and staff limitations, enrollment of non-majors in the visual arts has been curtailed. The School had 1,055 students this year. Color of tassel on the cap: brown.

SCHOOL OF PHARMACY

PRESENTED BY DEAN HOWARD E. MOSSBERG

Marshals Assisting: Gary L. Lage, James D. McChesney

THE SCHOOL OF PHARMACY was founded in 1885, the third such school at a state university. The School offers the degree Bachelor of Science in Pharmacy, a five-year course of study in which the last three are in the School of Pharmacy. The School prepares its graduates to become practicing pharmacists or to fill positions in the pharmaceutical industry or with government regulatory agencies. An increasing number of students are doing graduate study, which the School offers in its Departments of Analytical Pharmaceutical Chemistry and Pharmaceutics, Pharmacology and Toxicology, and Medicinal Chemistry. The School enrolled 233 students this year. The color of the tassel on the academic cap is olive.

SCHOOL OF EDUCATION

PRESENTED BY DEAN DALE P. SCANNELL

Marshals Assisting: Philip C. McKnight, Alvin H. Schild

THE SCHOOL OF EDUCATION was organized in 1909, but a Normal Department had offered teacher training since 1876. The School enrolls students at the junior-senior level except for physical education majors, who enter as freshmen. The School offers the degrees Bachelor of Science in Education, Bachelor of Music Education, and Bachelor of Art Education. Enrolling 1,909 students, it is the third largest of the University's 12 schools, a position held for several years. The School and its faculty also constitute the largest department in the Graduate School. Color of tassel on cap: light blue.

SCHOOL OF BUSINESS

PRESENTED BY DEAN CLIFFORD D. CLARK

Marshals Assisting: Harold C. Krogh, Joseph A. Pichler

THE SCHOOL OF BUSINESS was founded in 1924. Today it enrolls nearly 700 students, all at the junior-senior level. The degree is Bachelor of Science in Business. Majors are in Accounting or Business Administration. In the latter major concentrations are possible in Computer Science, Industrial Administration, and in such traditional disciplines as Economics, History, Mathematics, and Psychology. The School also provides work leading to the degrees Master of Business Administration, M.S. in Business, M.S. in Petroleum Management, and the Ph.D. in Business. Color of tassel: drab.

WILLIAM ALLEN WHITE SCHOOL OF JOURNALISM AND PUBLIC INFORMATION

PRESENTED BY DEAN EDWARD P. BASSETT

Marshals Assisting: Calder M. Pickett, Lee F. Young

THE WILLIAM ALLEN WHITE SCHOOL OF JOURNALISM was authorized in 1944. The first journalism course appeared in 1891, courses began regularly from 1903, and a Department was created in 1909. The School, named for the world famous Emporia editor and alumnus, today enrolls 469 students, all juniors and seniors. It confers the degree Bachelor of Science in Journalism. The majors are Advertising, News-Editorial with several emphases including Magazine and Public Relations Journalism; Photo-Journalism, Radio-Television-Film, and Science Writing. Color of tassel: cardinal.

SCHOOL OF ARCHITECTURE AND URBAN DESIGN

PRESENTED BY DEAN CHARLES HOWARD KAHN

Marshals Assisting: Thomas D. Galloway, Fount T. Smothers, Jr.

THE SCHOOL OF ARCHITECTURE AND URBAN DESIGN was established in 1968, but the first Department, with but one teacher and 13 students, was set up in 1913 in the School of Engineering. Architectural engineering was taught at first but Architecture was soon added. Its importance shows in the name, School of Engineering and Architecture from 1927 until 1968. Study for the degree Bachelor of Architecture was changed from four to five years in 1947 and in 1958 for architectural engineering. The increasing complexity and diversity of preparation needed for architecture prompted the School to phase out its five-year-program and institute a four-year program for the non-professional degree Bachelor of Environmental Design. Additional professional training is left for the graduate level. Color of the tassel: brown.

OATH OF HIPPOCRATES

I swear by Apollo, the physician, by Asclepius, by Health, by Panacea and by all the Gods and Goddesses, making them my witnesses, that I will carry out, according to my ability and judgment, this oath and this indenture.

To hold my teacher in this art equal to my own parents; to make him my partner in my livelihood; when he is in need of money to share mine with him; to consider his family as my own brothers, and to teach them this art, if they want to learn it, without fee or indenture; to impart precept, oral instruction, and all other instruction to my own sons, the sons of my teacher, and to indentured pupils who have taken the physician's oath, but to nobody else.

I will use treatment to help the sick according to my ability and judgment, but never with a view to injury and wrongdoing. Neither will I administer a poison to anybody when asked to do so, nor will I suggest such a course, but I will keep pure and holy both my life and my art.

I will not use the knife, not even, verily, on sufferers from stone, but I will give place to such as are craftsmen therein.

Into whatsoever houses I enter, I will enter to help the sick, and I will abstain from all intentional wrong-doing and harm, especially from abusing the bodies of man or woman, bond or free.

And whatsoever I shall see or hear in the course of my profession, as well as outside my profession in my intercourse with men, if it be what should not be published abroad, I will never divulge, holding such things to be holy secrets.

Now if I carry out this oath, and break it not, may I gain for ever reputation among all men for my life and for my art; but if I transgress it and foreswear myself, may the opposite befall me.

*NOTE:

Tied to antiquity by language obscure and archaic, The Doctors' Oath has been a part of the physician's legacy since the days of Hippocrates c. 400 B.C. There are those who see this solemn affirmation as a priceless symbol of professional heritage not possessed by any other like group—an exhortation to moral and ethical perfection; but since knowledge and character cannot be separated in the physician, the pledge is also a prayer for intellectual attainment and proficiency in the art. It is a vow freely promised by the physician, proud of his birthright, to embrace the concept of self-discipline for the public good as a characteristic inseparable from the remainder of his professional philosophy.

THE LAWYER'S OATH

I Do SOLEMNLY SWEAR:

I will support the Constitution of the United States;
I will maintain the respect due to Courts of Justice and judicial officers;
I will not counsel or maintain any suit or proceeding which shall appear to me to be unjust, nor any defense except such as I believe to be honestly debatable under the law of the land;
I will employ for the purpose of maintaining the cause confided to me such means only as are consistent with truth and honor, and will never seek to mislead the Judge or jury by any artifice or false statement of fact or law;
I will maintain the confidence and preserve inviolate the secrets of my client;
I will abstain from all offensive personality, and advance no fact prejudicial to the honor or reputation of a party or witness, unless required by the justice of the cause with which I am charged;
I will never reject, from any consideration personal to myself, the cause of the defenseless or oppressed, or delay any man's cause for lucre or malice.

Campus visitors saw scenes like this about 1920. The automobile had arrived but a paved street and planned parking hadn't. Parking space was where you found it and the problem became stickier after a rain. The view is to the northeast toward Bailey Hall from old Robinson Gymnasium. The street car line, a much-used service, came up Mississippi Street, went in rear of Bailey and passed down the Hill behind Flint Hall toward Tennessee, and then back to the business district.

THE ONE HUNDREDTH COMMENCEMENT

The University of Kansas is holding its 100th Commencement Exercises as it closes its 106th year. No celebration was planned as the University had a Centennial program extending over several months in 1966.

That the first Commencement came in the University's sixth year results from the fact that when 26 women and 29 men enrolled in September 1866, not one was ready for college work. Hence the "University" first functioned as a preparatory school, adapting itself to its times and circumstances.

The first Commencement, with the exercises on June 11, 1873, followed the traditions of the eastern schools. There was a baccalaureate sermon, a class day, a commencement procession and oration, the conferring of degrees—and a banquet.

The exercises were held in the then unplastered chapel of University Hall, later named Fraser Hall. In the first baccalaureate sermon the Rev. Richard Cordley of Plymouth Congregational Church criticized the "modern spirit." In an age we are prone to believe belonged to a world of slower tempo and more leisurely life, he said:

"This haste to be rich—this impatience for promotion—this eagerness for results, is the peril of the age. It is called a fast age. We hurry everything."

And "We carry this into education. We have short cuts to science, 'Latin in Six Short Lessons,' 'Mathematics Made Easy.' We cross the ocean in ten days, why not go through college in ten months?"

The Commencement speaker was U.S. Senator John J. Ingalls of Atchison, one of the nation's fine orators. He opened:

"The first time I stood upon this consecrated eminence, I looked southward and eastward down the enchanted valleys of the Wakarusa and the Kaw, through the vacant embrasures of a rude fortification that frowned with incongruous menace above the pastoral landscape for whose tranquil and diversified beauty, nature has no rival, art has no synonym. Clustered along its base, and mirrored in the sluggish stream, were the humble homes of those new Pilgrim Fathers of the West, impelled by

"The unconquerable mind and freedom's holy flame"—
to establish in solitude the germs of those institutions which in this brief interval have grown and expanded into a civilization that is one of the great wonders of the world; a civilization that would have been almost miraculous had its energies been expended in the material triumphs which have been achieved over the stubborn forces of nature, and the wild and wasteful wilderness; the railroads that have been builded, and the cities that have been strung like pearls along their iron cords; the streams that have been bridged, the commerce that has been nurtured; the vast areas that have been rendered productive; the industries that have been developed; but far more marvelous when considered in its connection with these higher attributes which today find their highest expression in the rites which we here perform, to commemorate the first annual commencement of the University of Kansas. This is the State's consummate hour."

As times changed, so have Commencements and their accompanying activities. Today's exercises recognize what probably always has been the most important thing: recognition of those graduating. The lengthy address disappeared more than a quarter century ago. The major portion of the exercise is devoted to the graduates themselves.

The University of Kansas is graduating the largest class in its 106 years. This Commencement program records the granting of 1,792 degrees and certificates in medical and para-medical specialties, and the candidacies of 2,801 other persons, a potential of 4,593. This is 87 more than a year ago. Represented in this program are Kansas, 45 other states, the District of Columbia, and 51 foreign lands: Argentina, Australia, Austria, Brazil, Canada, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, England, Ethiopia, Finland, France, Germany, Greece, Guyana, Honduras, Hong Kong, India, Indonesia, Iran, Ireland, Israel, Italy, Japan, Jordan, Korea, Lebanon, Libya, Malaysia, Mexico, The Netherlands, Nicaragua, Nigeria, Okinawa, Pakistan, Panama, Peru, The Philippines, Portugal, Saudi Arabia, Scotland, South Africa, Spain, Taiwan, Tanzania, Thailand, Trinidad, Tunisia, and Venezuela.

■ The 100th Commencement Program is composed of two listings for each degree. One list shows the names of students who have been granted degrees since May 17, 1971. The other lists names of students who are candidates for degrees on May 21 or 22, 1972.

■ Two symbolic items can be seen in the Chancellor's group in the academic procession. The ceremonial mace is carried by the chief marshal. The ceremonial collar is worn by the Chancellor.

These symbolic badges of authority are traditional in universities throughout the world. The University's mace and collar were designed and executed by Prof. Carlyle H. Smith. They were the gift to the University by former Chancellor and Mrs. W. Clarke Wescoe in honor of their parents.

The wooden shaft of the eight-pound mace is of ash taken from the stairway in old Fraser Hall. At the upper end of the mace, carried cradled on the left shoulder, are ten forged pieces of solid silver, representing the ten schools of the University existing at the time. Inside the "ten silver fingers" is a gold sphere symbolizing the University itself. At the tips of the fingers rubies and sapphires are alternately mounted, portraying the University colors, crimson and blue.

The silver ceremonial collar is light and of simple wide-link construction. The University seal, designed several years ago by Prof. Elden Tefft, is in the center of the medallion. Mounted around it are ten stones, representing the ten then existing schools, in alternating sapphires and rubies.

ACADEMIC REGALIA

Today's academic regalia represent traditions stemming from the world's oldest universities and in the United States a degree of uniformity exists.

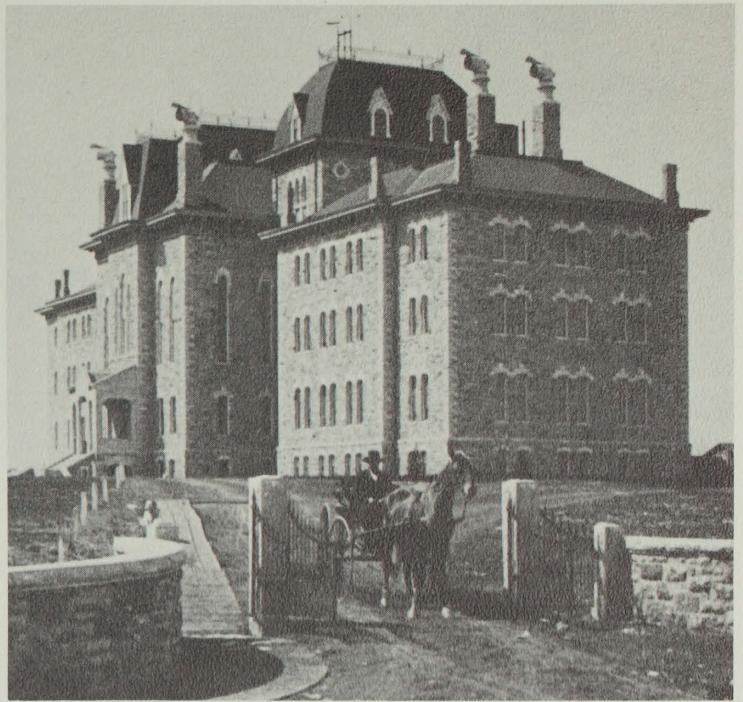

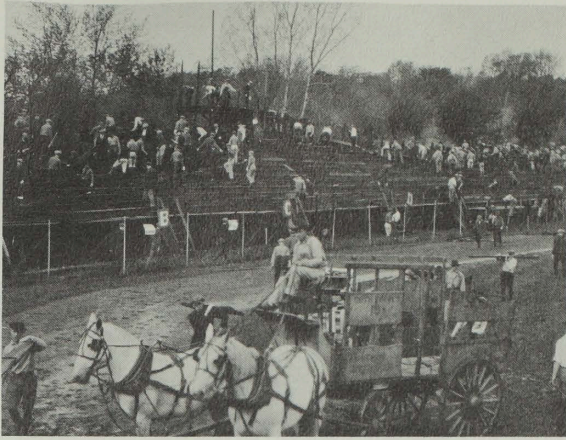

The gown for the various Bachelor's degrees has pointed sleeves and is designed to be worn closed. The Master's gown has longer sleeves, not pointed. The gown for the Doctor's degrees has bell-shaped sleeves. It and the Master's gown may be worn either open or closed. The sleeves of the Doctor's gown are trimmed with velvet chevrons.

The colors of the hood worn by the holder of the Doctor's degree indicate the school from which it was earned and the field in which it was awarded. The lining of the hood carries the school's colors—crimson and blue in the case of the University of Kansas. The velvet edging of the hood signifies by its color the field in which the degree was designated.

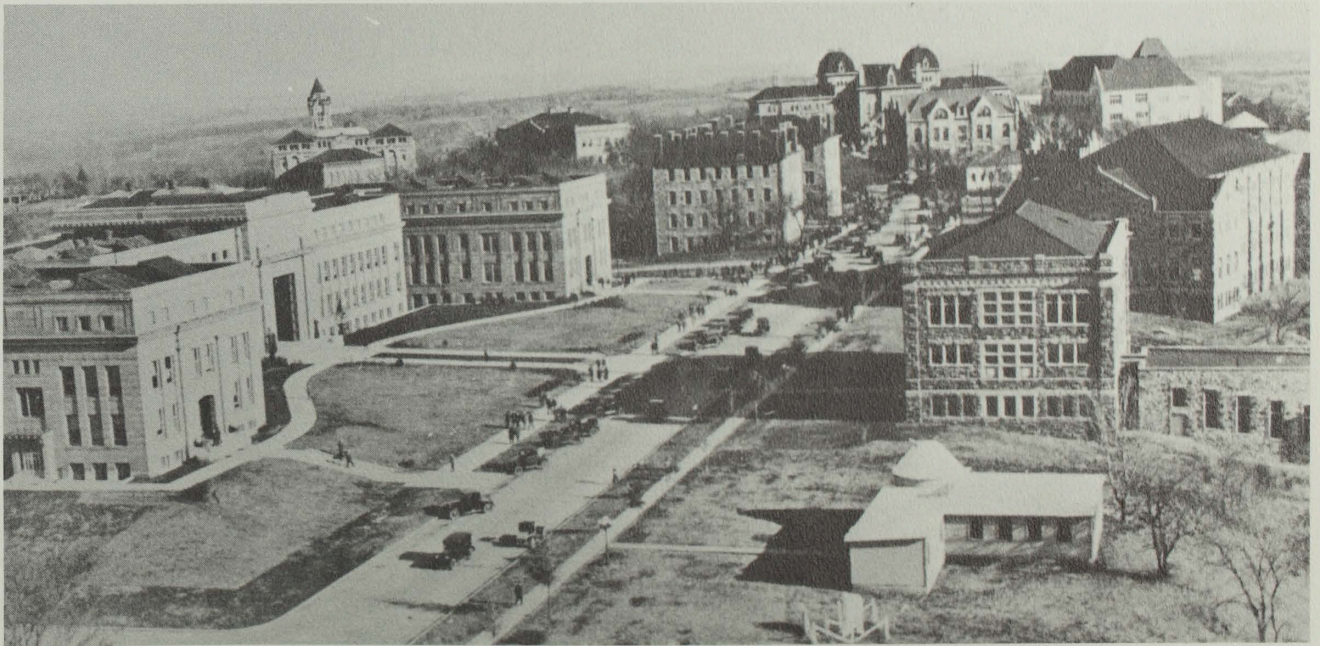

In the Sunday exercises, gowns worn by the candidates for the Juris Doctor degree will have purple chevrons on the sleeves and the third color on the hood will be purple, which indicates law. Candidates for the Doctor of Medicine degree will have green chevrons and green will appear on the hood. Candidates for the doctoral degrees conferred by the Graduate School will have black chevrons on their gowns and the hoods placed upon them will be crimson and blue. Blue also is the trim color indicating the degree, Doctor of Philosophy.

While these traditions of academic costumes are followed by most American universities, many foreign universities show great diversity, following traditions centuries old. In some cases the entire gown indicates by its color the school from which its wearer graduated. In other cases a distinctive cap is used. A few of these colorful academic costumes may be seen in University of Kansas exercises.

The Chief Marshal of the University, the Chancellor, the Governor and those to be cited for distinguished service wear a distinctive cap and gown designed for the University of Kansas.

Above: Students and faculty turned out en masse to raze the wooden stands of McCook Field in 1921 when the Million Dollar Drive had progressed to assure the first unit of Memorial Stadium by fall. The World War I Memorial also included the original Kansas Union and the statue of Uncle Jimmy Green. Right: The wall around old Fraser Hall, then the nation's largest educational building, was part of a campus beautification plan. The gate was functional; it kept out the grazing cows that bothered Chancellor James Marvin. Tending the gate was a prized student job.

Jayhawk Boulevard was paved west to Marvin Hall from which this picture was made in 1924. All buildings visible on the south (right) of the street have disappeared except the new Watson Library and Flint Hall, whose tower roof appears in the right background. The observatory in the foreground soon was moved west of Marvin to make way for Hoch Auditorium and then was incorporated into Lindley Hall. Old Haworth Hall and Robinson Gymnasium gave way for Wescoe Hall, now abuilding. The frame anatomy building burned two decades later. Old Snow Hall, sitting almost on the street, was replaced by a new namesake farther west. Old Fraser Hall fell victim of structural infirmities. The Journalism "Shack," whose attic can be detected only by those familiar with it, gave way to a library addition.

The picture on the Front Cover, "First Day at K.U., 1866," was painted by the late Streeter Blair, member of the Class of 1911. It depicts the faculty welcoming the new students to what later became known as North College. Mr. Blair, after a successful career in advertising, began painting for a hobby in 1949 when 62 years old. Self-taught and painting in the "primitive school," he had much success and the University is fortunate to own several of his paintings. He died in 1966.

Background information about the Commencement exercises and historical pictures appear on pages 45, 46 and 47 of this program. Texts of the Oath of Hippocrates and The Lawyer's Oath, which will be administered to candidates for doctoral degrees from the School of Medicine and School of Law, appear on pages 43 and 44 respectively.
