The University of Kansas, which opened in 1866, enrolls 10,000 students in ten schools: College of Liberal Arts and Sciences, Schools of Business, Education, Engineering and Architecture, Fine Arts, Journalism, Law, Medicine, Pharmacy, and the Graduate School. There are 72 teaching departments with fulltime faculty numbering 800. The main campus at Lawrence has more than 700 acres on and around Mount Oread. The K.U. Medical Center is in Kansas City, Kansas. Private support has played an important role in adding to the stature of this state university: nearly half the 70 major buildings were gifts or came from sources other than tax appropriations. The student body includes representatives from all the United States and 60 foreign lands. K.U. faculty hold sponsored research contracts amounting to more than \$2½-million a year.
