

"Far above the golden valley" describes the scenic K.U. campus. From Mount Oread, thus named by emigrants from New England in 1854, Jayhawkers daily view the broad, inspiring expanses of the

Kaw and Wakarusa valleys. More than 50 buildings, with others to be erected provide classrooms and laboratories, living quarters and recreational areas for students.

### K.U.'s 173-Acre Campus Atop Mount Oread Is One Of Nation's Most Beautiful

Classic architecture, abundant landscaping, tree-lined paths, form an ideal "second home" for students during their years at K.U. Capped and gowned seniors never forget the beauty of the march

down Mount Oread into Memorial Stadium as the golden rays of the setting sun silhouette their alma mater.

Mount Oread is an unforgettable place.
