About OAster

OAster currently provides access to **18,370,955** records from **1034** contributors.

OAster is a **union catalog of digital resources**. We provide access to these digital resources by "harvesting" their descriptive metadata (records) using [OAI-PMH](#) (the Open Archives Initiative Protocol for Metadata Harvesting).

Using OAster

OAster can be searched by Title, Author/Creator, Subject, Language or Entire Record. Searches can also be limited by resource type (text, image, audio, video, dataset) and sorted by title, author, date and hit frequency. Results allow further limiting by data contributor (i.e., where the record was harvested from).

[Home](#)
[Search](#)
[Help](#)
[About](#)
[Using OAster](#)

Search our test portals -- [DLF](#), [MODS](#) -- to use features we're researching.

Tips:

If you enter more than one word in a search box, the words will be treated as a phrase and searched together, e.g., entering *fancy dress* will find records that have the word *fancy* next to *dress*. No quotations are necessary.

Use an asterisk with a word stem to find variations on the word, e.g., searching for *civ** will match *civ*, *civil*, *civic*, *civilization*, and *civilian*.

Search within fields [\(help\)](#)

Use a word or phrase, e.g., diploma*, fancy dress

Limit by resource type [\(help\)](#)

Choose one or more

- text
- image
- audio
- video
- dataset

You found **14 records** by searching the **Author/Creator** field for "**Alexander, Ronelle**" or in the **Author/Creator** field for "**Ronelle Alexander**" not in the **entire record** field for "**muse**".
[Revise your search](#) to retrieve fewer records.

Title	Hierarchies of Stress Assignment in Bulgarian Dialects
Author/Creator	Zhobov, Vladimir ; Alexander, Ronelle ; Kolev, Georgi
Publisher	eScholarship Repository
Publisher	University of California, University of California, Berkeley
Year	2004-07-28
Resource Type	text
Resource Format	application/pdf
Note	This volume summarizes the results of a joint North American - Bulgarian research project in dialectology, which culminated in a joint field expedition in the summer of 1996. The project was co-directed by Professor Ronelle Alexander of the University of California, Berkeley, Professor Todor Bojadzhiev, and then Assistant Professor Vladimir Zhobov, both of Sofia University. The expedition and the research resulting from it was supported in part by a grant from the International Research and Exchanges Board (IREX) with funds provided by the United States Department of State through the Title VIII program. None of these organizations is responsible for the views expressed. Links to two maps of Bulgaria can be found on the UCIAS website for the volume: http://repositories.cdlib.org/uciaspubs/editedvolumes/2/ . One shows the sites visited by the 1996 expedition, and the other summarizes fieldwork by the expedition leaders, which was carried out between 1990 and 1993 and which lay the groundwork for the 1996 expedition. Except in the volume's title page and table of contents, the transliteration of Bulgarian Cyrillic follows the normal "academic" system, with the addition that it renders the Bulgarian vowel "er goljam" by the Bulgarian Cyrillic character.
Subject	Central and Eastern Europe; dialectology, Bulgaria, Slavic languages

Table 6. Where do they post the most?

The screenshot shows the University of Michigan Library website. The header includes the MLibrary logo and the text "UNIVERSITY OF MICHIGAN". A search bar contains "Mirlyn: Library Catalog" and a "Go" button. Navigation tabs include "About Us", "MLibraries", "MLibrary Services", "Information for", "Resources", "Help", "Ask a Librarian", and "Tag This Page".

The main content area is titled "Digital Library Production Service". It contains the following text:

The Digital Library Production Service (DLPS) was formed in 1996 to provide infrastructure for campus digital library collections, including both access systems and digitization services. DLPS is a unit of the University Library, and is part of its [Library Information Technology Division](#). DLPS is also responsible for the [Digital Library eXtension Service \(DLXS\)](#) and host services for other academic institutions and non-profit organizations.

DLPS provides access to over 200 text, image, and finding aid collections that collectively provide access to over a million digital objects.

About DLPS
Information about DLPS history and mission, core service units, and the organization, including [Digital Conversion Services](#) available to the University and other non-profit institutions.
