

Advance in research on prostate cancer

Emily Scott, associate professor of medicinal chemistry at KU Medical Center, recently uncovered the structure of a protein linked to prostate cancer. This work, completed with former graduate student Natasha DeVore, was published in the February 2012 issue of the journal Nature.

TODAY'S HEADLINES

Evaluating inmate re-entry programs

A recent study shows a government-funded program to help prisoners re-enter society and avoid returning to prison did not produce better results for those in the program when compared to those not taking part in the program. But KU professor Margaret Severson argues that it's inaccurate to call such programs a failure.
