KUMC researcher wins Horwitz Prize

Joe Lutkenhaus, University Distinguished Professor of microbiology, molecular genetics and immunology at KU Medical Center, has been named one of three winners of the 2012 Louisa Gross Horwitz Prize by Columbia University in recognition of his work to understand the intricate, dynamic and three-dimensional organization of bacterial cells. Established in 1967, the Horwitz Prize is Columbia's top prize and widely considered a precursor to the Nobel Prize.
