This is a line of stragglers and the end of dynasties, that of River City Moon, former Process News. And this reminds us of the news that dynasties, the Castle Mariner, of the Midwest, and its pitiful and colorless offspring, the River City World. We're fed up that we decided to found a new, colorless, nameless newspaper, the River City Moon. This is volume 1, no. 1, of something that will probably never reach doors to condemn the most recent assault on the person of Governor Andy. Every spring Sister Kenedra raises the saving above her million dollar Atomic deep sea ship and begins an underwater odyssey unparalleled in 20th century holywog. When she returns in the fall she is often 20-30 pounds lighter than she was when she left. This voyage is totally secret. No government agency, no citizen, in fact no human alive is privy to it's mysteries. Sister Kenedra's aloof and guillem, though a millipede, is elusive and classlike when on land. Thus we can only speculate. Perhaps she is engaged in a study of coastal oyster beds, perhaps she does it because of the how joy, whatever the reason, we wish her with all our heart.

FOCAL POINT: Civil Engineer Hop Arno, chief of the Federal Aviation Authority's safety program, is shown pouring the stiff white syrup which emerges from the C-57's new federal safety facility on the edge. In the foreground, a finished loaf of hot new bread from the government's scientific baking engineers. This bread has been designed e-fluoridized, containing a daily supplement of anti-cancer material, an extra for those on strict dietary diets. These loaves are brought to housewives signed up on the program. The process is this: Human fecal material is collected at riverfront drainage pipes in massive quantities, then trucked to the purifying plant at all corners of the metro area, where it is released in sufficient, dried, flouried with automatic wasps of cooled air, after this it is placed in giant shaking vats, to make it loosen, and baked.

The victim shown here of flyby coastal work done by oversight supervisors is a helicopter and a great deal of coal, we think the government is obliged to remove them up and send them in single file through the terminal process plant in Philmont. This distortion of the eyes of these pitiful victims only further illustates these thoroughly inadequate medical procedure period. Simply look at Mr. Wayne W. Prop, top photo, whose eyes have been severely reduced in size and visual power, and Mr. Brown, cruelly denied the smoking eye process top and poor Jackie Jackie, her once delicate brown look turned back and beaming into approaching Jackie. COMMENTARY

"Do you think the world is polluted?" Charlie Riley, supervisor. Cherry Hill, "You're talking to the wrong guy. You'd be better off talking to the experts on something like that. If we ain't got pollution, we ain't got a world to live in. I'm not the one. Pollution isn't any different, but people seem to be taking an active interest in it. I noticed that, we're not the losers, the bottomless, the bearders, we've got everything."
Thwarted Rape Try

Police told her that the man could not have been the person who assaulted her. She then decided to go home. While driving, she noticed a white car, driving a red car, and suspected that it was the suspect. She reported the incident to the police, and they investigated the case. The man who assaulted her was later arrested and charged with rape.

The man told police that he had gotten the flat tire. He was later found to be the one who assaulted her. He was then forced to admit to the assault and said that he regretted it.

The assault was a shock to the victim. It was a major event in her life and had a significant impact on her.

Man Dies After Beating With Bat

A 42-year-old man died yesterday after he was bashed with a baseball bat Saturday by a man in a passing car. The victim, who was found dead in an apartment at 1101 E. 123rd, is the second man to die in the city in recent days.

The attack, which occurred at 1121 E. 115th Street, left the victim unconscious with severe head injuries. Police are searching for the suspect, who fled the scene in a car.

The victim, 42-year-old Joseph M. Smith, was pronounced dead at Provident Hospital. He had been living with his parents in the area.

Police believe the attack was motivated by a dispute over a car and are asking for witnesses to come forward.

The incident occurred shortly after 6 p.m. yesterday, when the victim was found unresponsive in his apartment.

The victim, a man in his 50s, was pronounced dead at the scene. Police are investigating the cause of death.

Funeral services for the victim will be held at 11 a.m. tomorrow at Our Lady of Sorrows Church.

A SENATOR CHOKES A MAN

The senator, who was at a meeting of the Senate Committee on Agriculture, was overcome by a sudden coughing fit.

A witness said the senator appeared to be choking and was struggling to speak.

The Senate chaplain was called to assist, and the senator was later taken to a nearby hospital for treatment.

Myra's art typing

Myra, a well-known art typist, was working on a new project when she suddenly collapsed and died at her desk. The cause of death is unknown.

Myra had been working for the company for over 20 years and was widely respected for her expertise and dedication.

The company is seeking to fill the position and has set up a memorial fund in Myra's honor.

**NEW PRODUCERS**

The following producers have come in, talking of new rules and regulations. First the City placed electric barb cues on every street, and finally the red cross snuff rods. Still, we had not enough O-meat in our petting parlors, and what does the government want? They tell us lies about new pro-grams using our mail output at the lower baby farms. But the process is not fooled. The pumping of baby is supply for all Americans for work, as we remember the first cyclone we nixed under the red cross quota. The cyclone, the thing up-shock able under one.

Dear Editor, On the other hand, I feel that the young artist is a little too much to the point of being "sentimental," and that the question of whether a young girl can be a fine artist is not quite so clear-cut as the article would lead one to believe.

Dear Author, The picture of the woman in the article was absolutely stunning. It was a beautiful representation of the subject, and it was clear that the artist had a deep understanding of the human form. However, I was a bit concerned about the use of bright colors, as they can sometimes be overwhelming.

Dear Editor, I was very touched by the article about the woman who found a lost puppy. It was heartwarming to see such kindness in the world today. I hope that we can all learn from her example and be more compassionate towards those around us.

Dear Editor, The article on the rise of fake news was very informative. It's important that we all stay informed and critical of the information we receive, especially in this era of disinformation. Thank you for shedding light on this important issue.

Dear Editor, I found the article on the use of artificial intelligence in healthcare very interesting. It's amazing how technology is changing the way we approach medical care. However, I do have some concerns about the ethical implications of this technology.

Dear Editor, The article on climate change was very alarming. It's clear that we need to take drastic action to prevent the worst effects of global warming. I hope that more people will become aware of this issue and take action to reduce their carbon footprint.

Dear Editor, The article on the rise of veganism was very enlightening. It's interesting to see how people are starting to reconsider their dietary choices and recognize the impact of animal agriculture on the environment. I hope that this trend continues and that we can all work together to create a more sustainable future.
