MUSEUM OF NATURAL HISTORY
CATALOGUE OF PUBLICATIONS IN
MAMMALOLOGY

February 1977

Robert S. Hoffmann

Special Publication No. 2
CATALOGUE OF PUBLICATIONS
IN MAMMALOGY.

PUBLISHED BY
THE UNIVERSITY OF KANSAS
MUSEUM OF NATURAL HISTORY

By

ROBERT S. HOFFMANN

The first publications of the Museum of Natural History appeared in 1946. Since that time five "series" have been associated with the Museum. The first of these - The University of Kansas Publications, Museum of Natural History (commonly referred to as the "Museum Series") - commenced with Volume 1 in 1946 and terminated with Volume 20 in 1971. The "Museum Series" was replaced by the Occasional Papers of the Museum of Natural History, the first number of which appeared in 1971. The format of the Occasional Papers is designed for publications usually less than 64 printed pages in length. Since 1971, the Miscellaneous Publications of the Museum of Natural History usually have been longer papers, but earlier numbers were of variable format; Number 1 was published in 1946. The Monograph series was initiated in 1970, the Public Education Series in 1974, and the Special Publication Series in 1976.

The catalogue provided herein is a complete bibliography of titles relating to mammalogy published since 1946 by the Museum of Natural History. The contributions listed cover a broad spectrum; some titles are technical, whereas others are of more general interest. The catalogue is designed to provide a useful reference and to facilitate the acquisition of mammalogical publications by interested persons.

Publications are listed in approximate chronological order within each series in the catalogue. Each one is preceded by a serial number composed of 1) the Museum Contribution Number, 2) an abbreviation of the publication and 3) the volume (if applicable) and number. Thus, serial number "28-MS-1-1" is Museum Contribution Number 28 of the "Museum Series," Volume 1, Number 1. Abbreviations used throughout are as follows:

MS .................................. Museum Series
MP .................................. Miscellaneous Publications
OC .................................. Occasional Papers

1 Curator, Division of Mammalogy, Museum of Natural History, and Professor, Department of Systematics and Ecology, The University of Kansas, Lawrence, Kansas 66045, U.S.A.
Please note that any publication marked with a dagger (†) is out of print. Those marked with a dagger and an asterisk (†*), while out of print, are available on microfilm. Persons from North and South America seeking information about such publications should address their inquiries directly to:
