Read through your article and make note of any examples of Background information, Exhibits, Arguments, or Methods, and briefly explain how this information could be helpful to your group's presentation. Remember that not every article will include all 4 examples.

			Example	Was this helpful
В	 Any source assumed to be noncont roversial 			
Background sources	Stipulated as shared facts and information	\geq		
E Exhibit or Evidence derived from exhibits	 Visual images, documents, data, field/lab findings, other artifacts or objects analyzed "Exhibit" specifics used as evidence within the argument 			
A Argument sources	 Critical views and relevant scholarship Other scholarly articles or papers 			
M Method or Theory sources	 References to the theories or methods being employed Sometimes implicit, often explicit
