THE KANSAS JOURNAL OF SOCIOLOGY

STATEMENT OF EDITORIAL POLICY

THE KANSAS JOURNAL OF SOCIOLOGY offers a means of communication for students in the various disciplines of inquiry concerned with human society. Students, in our view, are not defined by age, rank, or academic degree. As members of the scientific community, they wish to construe a universe that is above all truthfully conceived, while knowing that no truth-claim is ever more than tentative, that no understanding ever more than a temporary approximation, and that the question is the mark of science. As "youthful" members of that community, they are less anxious to be among the many who know the answers than they are intent to be among the few who discover the questions. Since boldness is an old test of youth, and hardnosed curiosity the students' sport, they often venture into unmapped fields, experiment with rustic or forgotten tools of thought, and probe the bite of concepts in the recalcitrant, abstruse, but, for them, always fascinating material worlds construed by men.

In other words, the journal opens for all serious students a way to contribute more to the spirit of their discipline than to the ritual of the profession.

The article is welcome. Particularly invited is the creative, thought-provoking paper of broad sociological interest. If reports are submitted, let the theoretical problem be clear, the assumptions recognized the strategy of research discussed and, most important, let the meaning of the particular investigation for further thought and research be evident. But the hard and terse prose is not the only source of insight or stimulation. The short essay, the querulous statement, the searching comment, the informative book review, the considered rejoinder -- these and other expressions of the inquisitive mind have their place. Even the report of the flagrant failure may be more enlightening than the confession of a confirmed hypothesis. The journal's envoi goes to imagination in the sociological discipline and discipline in the sociological imagination. Its motto is "From the students to the students," for in the end, the creative students themselves will decide that the spirit of this journal shall live.

THE KANSAS JOURNAL OF SOCIOLOGY endeavors to further scholarly inquiry into social phenomena. The journal welcomes research reports, theoretical contributions, essays on issues of present concern to the discipline, and suggestions for improving current theory and methodology, from students, as well as established scholars, in the social sciences.

Manuscripts submitted should be double-spaced, less than thirty typed pages, footnotes and references appended, and accompanied by an abstract. Preparation of copy and reference format should comply with that used in publications of the American Sociological Association. If published, the author receives ten free reprints.

All articles appearing in THE KANSAS JOURNAL OF SOCIOLOGY are indexed in Sociological Abstracts. THE KANSAS JOURNAL OF SOCIOLOGY is available on microfilm to regular subscribers to the paper edition. Inquiries should be addressed to University Microfilms, 313 North First Street, Ann Arbor, Michigan 48106.
Notes about Authors

Bill D. Bell is a Ph.D. candidate in social psychology at the University of Missouri -- Columbia. He is currently finishing his doctoral dissertation in the area of adult development and aging. He did his undergraduate work at the University of Kansas and finished his Master's work at Kansas State University. His articles have appeared in The Kansas Journal of Sociology, The Gerontologist, The American Journal of Occupational Therapy, The Journal of Gerontology, and The Review of Religious Research. He is currently a research consultant for the American Occupational Therapy Association and the Missouri Pilots Association.

Lewis S. Feuer has been Professor of Sociology at the University of Toronto since 1966. Formerly he was Professor of Philosophy and Social Science and Chairman of the Social Science Integrated Course at the University of California, Berkeley. He authored The Scientific Intellectual, 1963; The Conflict of Generations, 1969; Marx and the Intellectuals, 1969; and the book to be released in 1973 entitled, Einstein and the Generations of Science. His most recent articles include "The Social Roots of Einstein's Theory of Relativity," parts I and II in the Annals of Science.

David F. Gillespie received his B.A. and M.A. in sociology from California State University at Los Angeles. He is currently a candidate for the Ph.D., and an instructor in the department of sociology at the University of Washington. Recent publications by the same author have appeared in The New Scholar, Journal of Popular Culture, Comparative Group Studies, Utah State Journal of Sociology, and Contemporary Sociology. Gillespie's current interests are in the areas of theory construction and methodology, organizations, occupations, and the sociologies of creative behavior.

Cesar X. Hernandez-Cela received graduate degrees in engineering and sociology from the University of Notre Dame, Indiana. He currently teaches courses on Marxism, critical theory, and theory of knowledge at the University of Kansas.

Mary Lowther received an A.A. degree from Cottey College, Nevada, Missouri, in 1970 and a B.S. degree in social studies education from the University of Kansas in 1972. She plans to continue graduate work in American Studies. The article included in this journal is the product of projects in Contemporary American History at Cottey and sociology at the University of Kansas.

Gary G. Stanfield is a Ph.D. candidate in sociology at the University of Missouri -- Columbia. He is currently finishing his course work in preparation for comprehensive examinations next Fall. He did his undergraduate work at Wichita State University and completed his Master's work at the University of Missouri in Columbia. His articles have appeared in The Gerontologist and The Journal of Gerontology. He has published a number of book reviews in The Review of Social Theory.

Thomas D. Watts is a doctoral student in social work at Tulane. He is interested in value conflicts in social welfare policy and planning, social theory and social work practice, and health planning. His most recent articles were published in Arizona Medicine and Phoenix.
