Special Funding Initiative: Yes

Executive Summary

All materials have been ordered and received. We have everything ready to use with the project later this semester.

Description of Progress Toward the Project's Major Objectives

Planning meeting to share the materials with teachers (12:40 on 11/3). Met with all health teachers.

Evaluation Activities

It will be evaluated with a rubric.

Other

Problems or Barriers Encountered: None yet- will be setting dates for lessons soon and will put that in next update.

Here is the newsletter from our Nov/ Dec School Newsletter:

LHS library was awarded a \$1,500 grant from the National Network of Libraries of Medicine. We will use the funds to get materials for creating public service health announcements and for hands on activities. The students will be using iMovie to create public service announcements related to teen health and fitness. Additionally, MBSA students taking the Nutrition and Wellness elective along with freshman health classes will participate in health fairs and stations using activities purchased with this grant. They will also use information from MedlinePlus ([https:// www.nlm.nih.gov/medlineplus/](https://www.nlm.nih.gov/medlineplus/)). MedlinePlus is the National Institutes of Health's Web site for patients and their families and friends. Here is a description of the website: "Produced by the National Library of Medicine, the world's largest medical library, it brings you information about diseases, conditions, and wellness issues in language you can understand. MedlinePlus offers reliable, up-to-date health information, anytime, anywhere, for free." Be sure to use MedlinePlus the next time you are looking for medical information.
