Word of mouth at Medical Library Association conference in May in San Antonio, Texas

Complete an [Outreach Reporting Form](#) for demonstrations and training that took place during the reporting period. Complete an [Exhibit Report \(MS Word\)](#) for any exhibits as email attachments to [reports@rml4.utah.edu](mailto:reports@rml4.utah.edu) for inclusion as appendices to this report.

See ORFs of activities May 11 and May 25

**Other accomplishments: List any additional activities, resources, services, and administrative arrangements or collaborations that occurred during this reporting period.**

Database for data analysis done by web designer

**Target audience: Are there any insights you have gained about your target population during this reporting period? Have their needs changed since your initial assessment? Is the group different from your original anticipated audience?**

13.6% reported they had never been to a library or used online library resources during their time as a student. 68% reported they were "comfortable" with their ability to find information they needed.

**Goals, Outcomes, Objectives: Discuss problems, successes, surprises, and/or insights of this quarter. Based on these experiences and your progress to date, have you rethought or in any way modified your objectives for the project? Are the needs of the audience those you anticipated, and are the outcomes you expected still feasible?**

Perhaps self-reporting of information seeking abilities overstates level. Instructor will have to emphasize issue of verifiability of information.

Problem with data analysis in questions where more than one answer can be chosen; will have to redo formula.

Web design more time-consuming and complicated than anticipated so request shift of budget category from hardware to software design. Hardware being supplied by hospital

**Evaluation: List any specific evaluation activities that occurred during the reporting period. Activities might include surveys, focus groups, pre- and post-tests, interviews, log of activities, or other steps to monitor progress.**

Sent as WORD files

**Impacts and Observations: If there are anecdotes that illustrate the impact that the project is having, provide the narrative here; include any indicators of success. Share observations, lessons learned, and any other feedback you think would be helpful.**

Trainees seemed to enjoy doing the library assignments and did not feel like "Yuck, we're back in school."

**Planned Activities: Provide a brief outline of activities (training, exhibits, web development, meetings, evaluation etc.) that are scheduled for the next quarter.**

Another group of trainees arriving within a month. Will develop a post-test and work with web deisgned to correct problems with pre-test data analysis.
