Choose Databases

To search for a single database, click the database name listed below. To select a pair of dual databases to search, check the box next to the database names and continue.

More Information

NLM

PubMed provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and basic research. PubMed allows users to search articles in over 4,000 current biomedical journals. Includes links to full text.

More Information

CMC

CRN, the nation's bimonthly magazine for nursing students, faculty, educators, and researchers. The database provides indexing and abstracting for over 270 nursing and allied health periodicals and directories, including CNF, C設, and professional journals.

More Information

HealthSource

This collection creates interlibrary loan requests for over 3,000 hospitals and health care facilities. This collection includes over 1,500 journals and abstracts from over 100,000 articles and even 3,000 journals. This collection is produced by the National Library of Medicine.

More Information

Health Source: Dental

This collection includes over 1,000 dental journals and abstracts from over 100,000 articles and even 3,000 journals. This collection is produced by the National Library of Medicine.

More Information

Health Source: Nursing

This collection includes over 7,000 nursing journals and abstracts from over 100,000 articles and even 3,000 journals. This collection is produced by the National Library of Medicine.

More Information

Health Source: Consumer Health

This collection includes over 1,000 consumer health journals and abstracts from over 100,000 articles and even 3,000 journals. This collection is produced by the National Library of Medicine.
Citation Only Databases:

MEDLINE & CINAHL
(with links to fulltext collections)
Fulltext Collections:

Health Business (460 journals)
Psychology and Behavioral Sciences (550 journals)
Nursing & Allied Health (400 journals)
Biomedical Reference (900 journals)
Cochrane Database of Systematic Reviews

2310 total journals but some overlap, about 1700
**MEDLINE** provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more. Created by the National Library of Medicine. Over 4,600 current biomedical journals.

**CINAHL** (Cumulative Index of Nursing and Allied Health Literature) is the authoritative resource for nursing and allied health professionals, students, educators and researchers. Over 1,700 current nursing and allied health journals.
DRMC Medical Library Online Databases

MEDLINE
Enter a Search Term
Limits:
- Full Text
- Journal
- Author
- Date of publication
- Abstract
- Language
- Review article
- Gender
- Animal only (redundant)
- Subset (database with NCBI)
- Publication type (Case report, patient education handout)
- English only (redundant)
- Human only (redundant)
- Animal
- Age related
CINAHL

Basically the same limiters as MEDLINE except:

- Journal Subset
- Publication type (Case study, pamphlet)
- Age groups are different
- Special interest (Critical care, Nursing Administration, etc)

When searching both MEDLINE & CINAHL at the same time, all limiters must be entered separately.
A fast way to expand a search, click on MeSH terms

Medical Subheadings from NLM
MEDLINE can also be accessed directly from the National Library of Medicine website (PubMed)
Fast way to get free fulltext articles: Click on the “Limits” tab then select “PubMed Central” from the “Subsets” Pulldown menu.

To expand a search, click on “Related Articles”
Another feature of PubMed is “Links” which links to Reference Books with relevant information and libraries which have the journal and volume in their collection.
From Links- Books:
Words in the abstract are printed in blue, underlined and linked to textbooks or dictionaries for clarification and more information.

Separate tutorial about more features of PubMed available.
MedlinePlus

Verifiable Consumer Health Information / Patient Education

Links to online dictionary, encyclopedia, drug info, organizations, the latest news, Interactive Tutorials, etc.
Drug Information:

MedMaster™†, from the American Society of Health System (ASHS)

USP DI® Advice for the Patient® ‡ from the United States Pharmacopeia (USP)
DRMC Medical Library Online Databases

MICROMEDEX Healthcare Series

[Image of MICROMEDEX Healthcare Series interface]
Search for summaries and detailed monographs for drugs, disease, alternative medicine, toxicological managements, reproductive risks, and emergency care.

*Can be downloaded to a PDA.*

DRMC Medical Library Online Databases

Online Tutorial
(Very long but informative)
DRMC Medical Library Online Databases

www.wired.md/dixie

Patient Information:
Videos
Handouts
Links to verified websites

Search by part of the body, specialty or disease
To Google or not to Google? ? ?
To Yahoo or not to Yahoo? ? ?

“Arthritis” = 13,600,000 hits in Google
26,700,000 in Yahoo

How do you know what’s verifiable?

Short answer, IP address suffix:
.gov .org .edu

Suffix .com will be a commercial site; be weary.
DRMC Medical Library Online Databases

Summary:
All databases are very powerful and very different.
Worth it to do the Online Tutorials and look at the Help pages.
