Reporting Period end date (e.g., mm-dd-yyyy):

10/31/2004

Publicity: List publicity and promotional activities conducted during the reporting period, if there were any. (Send any examples of non-electronic promotional materials to the NN/LM MCR by mail or send an email attachment to reports@rml4.utah.edu or provide URLs.)

* Fort Lewis College made a formal announcement about accepting the Consumer Health Outreach Grant from the NN/LM MCR through its own newsletter.

* Fry announced the availability of Online Consumer Health Resources in the Fort Lewis Webpage at the Mercy Medical Center Leadership Council Meeting.

Complete an [Outreach Reporting Form](#) for demonstrations and training that took place during the reporting period. Complete an [Exhibit Report \(MS Word\)](#) for any exhibits as email attachments to reports@rml4.utah.edu for inclusion as appendices to this report.

No Outreach for demonstrations and training took place during this report period.

Other accomplishments: List any additional activities, resources, services, and administrative arrangements or collaborations that occurred during this reporting period.

* Southern Ute Mountain granted funds, \$3,500, to purchase consumer health books for John F. Reed Library.

* Fry made a list of recommend books for Consumer Health Collection Development at the library.

* Equipment arrived and they worked well.

Target audience: Are there any insights you have gained about your target population during this reporting period? Have their needs changed since your initial assessment? Is the group different from your original anticipated audience?

Fort Lewis College Librarians.
Mercy Medical Center physicians and nurses.

Goals, Outcomes, Objectives: Discuss problems, successes, surprises, and/or insights of this quarter. Based on these experiences and your progress to date, have you rethought or in any way modified your objectives for the project? Are the needs of the audience those you anticipated, and are the outcomes you expected still feasible?

Article to be published had to be postponed since Fry did not have much experience with various local organizations.

Fry wishes to publish an article by the end of the project so that she would be able to share the whole experience with her peers.

SWRLS announced to be closed by the end of August due to the lack of State funds. Fry needs to work on the project without their help.

Evaluation: List any specific evaluation activities that occurred during the reporting period. Activities might include surveys, focus groups, pre- and post-tests, interviews, log of activities, or other steps to monitor progress.

Fry tried to work with school librarians, but it was challenging to find time to share information

Most school librarians did not find time to allow Fry to make a presentation. It would be easier to visit each library to train each librarian.

Impacts and Observations: If there are anecdotes that illustrate the impact that the project is having, provide the narrative here; include any indicators of success. Share observations, lessons learned, and any other feedback you think would be helpful.

Fry will encourage Reed Library to have an "Open House" to celebrate consumer health collection toward the end of this project.

Planned Activities: Provide a brief outline of activities (training, exhibits, web development, meetings, evaluation etc.) that are scheduled for the next quarter.

Books will be ordered and catalogued.

Fry will try to contact different libraries to continue the outreach services.
