POST-PRESENTATION SURVEY

Please check all boxes that apply:

1. Do you feel that the information presented today
   - Made you feel more comfortable searching for medical information
   - Helped you understand how to evaluate the information you found
   - Confused you about how to find health information on the Internet
   - Will change the way you search for information
   - Didn’t change the way you will use the Internet

2. If you feel you learned better ways to find health information on the Internet, was it because
   - You were introduced to better searching skills
   - Medline Plus is a site that gives you confidence that the information is credible
   - You felt more confident with someone to guide you and answer your questions
   - You understand better how to understand medical information and the way it’s organized.
   - Other__________________________________________________________________________

3. If you feel you didn’t learn better ways to find health information on the Internet, was it because
   - You were confused by the information offered
   - The instruction was not helpful
   - You work better by yourself
   - You’d rather talk to a medical professional in person
   - It took too much time
   - Other__________________________________________________________________________

THANK YOU FOR YOUR FEEDBACK!
