PRE-PRESENTATION SURVEY

Please check all boxes that apply:

1. Would you consider your skill in finding information on the internet to be:
   - Expert
   - Average
   - Beginner

2. When looking for information on the Internet do you usually:
   - Just type the term you’re looking for into a web browser and see what comes up
   - Use a search “strategy” to help you narrow your search
   - Ask for help before you start

3. Have you used the Internet to find health information?
   - Yes
   - No (skip to question #6)

4. How would you rate your success at finding credible health information
   - Excellent—I almost always find what I’m looking for
   - Pretty Good—I usually find what I’m looking for
   - Poor—I may give up before I find exactly what I’m looking for
   - Terrible—I didn’t find anything that I wanted and gave up

(OVER)
5. Do you think finding health information would be easier if you:
   - Knew more about the Internet
   - Knew more about health information and understood medical terms
   - Had help from a manual
   - Took a class
   - Had an experienced person who would help you search
   - None of these
   - Other: __________________________________________

6. Which of the following would you be willing to do to help you find health information:
   - Read a manual
   - Ask a librarian or other experienced person for help
   - Take a class that explained how to search for health information
   - Other: __________________________________________

THANK YOU FOR YOUR INPUT!
