Publicity:
The brochure is completed and was taken to Diversity Day on May 31st. Accompanying the brochure were the Spanish language medical texts and consumer reading materials purchased through the grant funds. The brochure credits the National Network of Libraries of Medicine—MidContental Region.

Outreach Sessions:
Outreach sessions are planned for August and September of this year and will focus on Internet medical resources in Spanish.
Other accomplishments: List any additional activities, resources, services, and administrative arrangements or collaborations that occurred during this reporting period.

University of Utah Spanish instructor was contacted to edit the brochure.

Target audience: NA

Goals, Outcomes, Objectives: NA

Evaluation: NA
**Impacts and Observations:**
The Diversity Day event was attended by many Spanish-speaking families. The Spanish text materials were well-received along with the brochure.

**Planned Activities:** Provide a brief outline of activities (training, exhibits, web development, meetings, evaluation etc.) that are scheduled for the next quarter.

The fourth quarter will be a busy one as this is the time when I will take the brochure to local physicians, the Health Van, and provide training classes for the public, ESL classes, and physician offices.
