Medical Library Mission Statement

The mission of the Medical Library is to provide quality information services and resources for those affiliated with St. John's Health System. Library services and resources are directed toward health care professionals to enable them to provide excellent patient care and to support their continuing education needs.

By collaborating with the National Network of Libraries of Medicine, the Medical Library expands its access to a wide range of resources. Materials are shared through lending and borrowing from a wide network of both medical and non-medical libraries.

Summary

The walls of the alveoli are very thin. On the other side of the walls small blood vessels exist. The very thin wall of the alveoli allows the oxygen to go into the bloodstream and also allows CO₂ to go from the blood to your lungs to be exhaled.
