## **Executive Summary**

We have completed the purchasing of the models. The Health teacher and I decided which models to buy. The district then helped us to get quotes and to place the orders. We ended up using two companies Shop Anatomical and EdHealthCo. In addition we have been working with Kira Moody at the Salt Lake County Library. She has a lesson plan on Medline ready to go. Once the models come in Mr. Livingston (our health teacher) and I will work with Kira to adapt the lesson plan to a specific project.

The only barrier we encountered was simply the time needed to go through the district's purchasing process. However, they were very helpful in getting bids and finding quotes.
